Information Sheet

Specialist Insurance for Radio Aid Systems

A Radio Aid System (RAS) is the key solution to giving your deaf child equal access to education and therefore the best life chances.

Regrettably most children only have access to RAS in school and not socially and domestically.

This is simply due to Local Authority (LA)/school funding problems where they cannot take the risk/cost of loss outside the school environment.

More information on these points can be found on the National Deaf Children's Society website www.ndcs.org.uk

Is your child bringing their RAS home and getting the full benefit of 24/7 access? If not, Aspen offers a solution to this problem with a unique, specialist insurance policy 'Insurance4radioaidsystems'. The policy can be purchased by parents, schools or LAs at £125 pa per RAS (equivalent to only 35p per day) offering 24/7/365 cover.

The Cover

- Accidental Damage/Loss/Theft
- Any manufacturer, model or age of device
- Any age of child
- Automatically covers any replacement or upgrade
- 30-day worldwide cover for holidays

The Process

- Simple on-line purchasing
- Straightforward claims process
- Completed claims processed within 1 working day
- Replacements shipped direct from supplier
- No policy excess in the event of claim
